INTRODUCTION TO E-MANA

The rise of the digital currency has been a boon for many companies, institutions and investors alike. While digital assets have been a great way to store value and transfer value, they have been limited in their use cases.

That's why here at E-Mana we want to create a community wherein this digital assets can help spread the word of God and extend a hand to those in need in a way of giving back to the community.

With the technology we have and the pure intention of helping and reaching out to those people who is less fortunate, areas that needed help the most, victims of calamities or disaster , providing charity donations, building churches and institutions, and being able to bring people to the Holy Land.

Our platform is based on Smart Contract system providing safety and security to the funds you have given. This system will make sure that the funds coming in and out of our system will not be tampered with and making sure that the help you have given will reach to those in need.

VISION & MISSION

E-Mana's purpose that is derived from the word Manna is, according to the Bible, an edible substance which God provided for the Israelites during their travels in the desert. Just like how God provided food for the people, E-Mana will also provide help for people in needs.

With these in mind, our Founder and CEO's Vision and Mission is to help spread the word of the God and his spiritual awakening to everyone and extend our hands in helping others.

"We are committed on helping people all over the world, extending our hands to those in need and spreading the word of the Lord. We are a digitally innovative platform with a purpose."

E-MANA TOKEN

E-Mana is a newly built platform all for the sole purpose of finding support and help from other fellow people who wants to extend a hand and provide help to the less fortunate.

Our platform is based on Smart Contract system providing safety and security to the funds that will be given. This system will make sure that the funds coming in and out of our system will not be tampered with and making sure that the support or help that the people have given will reach to those in need.

Our token 'E-Mana Token (EMA)' is still in creation process but we'll soon be presented and release to the public. We will make sure that the value of our token and the purpose of this company is purely for good intention.

GIVING HANDS

Our mission is to provide help to the less fortunate with the money that will be collected through the support of the people who will buy our E-Mana tokens. That is why we called it 'Giving Hands'.

E-Mana token has a certain value in our system and you can choose on how much you want to give or support to a certain sector or institutions.

Part of this collected funds will help victims of calamities or disaster, providing charity donations, help in building churches or institutions and/or provide help in sending people to travel to the Holy Land.

This is not obligatory and it is not mandated or forced to anyone. This is purely for those who want to extend their hands and provide help with others.

THE FOUNDER

Emilio Roso

Founder/CEO of E-Mana and Vision of the Bible

HOLLYWOOD TV actor, filmmaker, director, producer, author, and photographer and now a Founder and CEO of his personal epiphany, and created the Vision's of the Bible app - the only app that combines stunning imagery with beautiful audio recordings of Bible stories and verses.

Now, he moves forward and created another means to share the fruits of his spiritual awakening, the E-Mana. It's main purpose is to provide and extend a hand to those in need, especially in the less fortunate area, help build churches and institutions and being able to bring people to the Holy Land and experienced it's spiritual healing. All this will be achieve and accomplish, with the help of everyone through their support by buying the E-Mana token.
